## DETAILED ACTION

### *Reasons for Allowance*

1. Claims 1-57 are allowed over the prior art of record.
2. The prior art does not teach the combination of "wherein in a case where an image output request of outputting image data inputted by another image input/output apparatus using the another image input/output apparatus and the own image input/output apparatus is received, the setting set by said setting means is disabled, and said calculation means calculates the data size of the image data transferred from another image input/output apparatus and said sheet selection means selects the output sheet size on the basis of the calculation result obtained by said calculation means". The closest prior art, Ohtani (US 5,678,000) discloses printer control apparatus that prints on various size sheets but fails to anticipate or render the above underlined limitations obvious.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably **accompany** the issue fee. Such submissions should be clearly labeled Comments on Statement of Reasons for Allowance.
